

Company Announcement

Nykode Therapeutics – invitation to Q1 2024 financial results presentation

Oslo, Norway, May 7, 2024 – Nykode Therapeutics ASA (OSE: NYKD), a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies, today announced it will release its first quarter 2024 financial results before the opening of financial markets on Tuesday, May 14, 2024.

The Company will host a subsequent webcast presentation to review the financial and operating results. A question-and-answer session will follow.

First Quarter 2024 Webcast:

Date: Tuesday, May 14, 2024

Time: 4 p.m. CET / 10 a.m. ET

Webcast: https://event.webcasts.com/starthere.jsp?ei=1670178&tp_key=4faf9c3758

The financial report, as well as a live and archived webcast of the presentation, can be accessed in the Financial Reports and Presentations section of the Company's website: <https://nykode.com/investors/financial-reports-and-presentations>.

About Nykode Therapeutics

Nykode Therapeutics is a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies with a focus on the treatment of cancer and autoimmune diseases. Nykode's modular vaccine technology specifically targets antigens to antigen presenting cells (APC), which have been shown to induce a broad, strong and long-lasting antigen specific immune response in cancer, which correlates with clinical responses.

Nykode's lead product candidates are VB10.16, a therapeutic vaccine for the treatment of HPV16 induced malignancies which demonstrated favorable safety and efficacy results from its Phase 2 trial for the treatment of cervical cancer. VB10.16 is being expanded into multiple trials for treatment of head and neck cancer and cervical cancer. VB10.NEO, an individualized cancer neoantigen vaccine, is exclusively out-licensed to Genentech, a member of the Roche Group.

The Company's partnerships include Genentech within oncology and a multi-target collaboration with Regeneron in oncology and infectious diseases.

Nykode is also utilizing its APC-targeted technology to create an inverse vaccine platform for the potential use in autoimmune disorders, organ transplant rejections, anti-drug antibody reactions and allergy.

Nykode Therapeutics' shares are traded on the Oslo Stock Exchange (OSE: NYKD). Further information about Nykode Therapeutics can be found at <http://www.nykode.com>.
