

## Company Announcement

### Nykode Therapeutics - Quarterly report Q1 2024

Oslo, Norway, May 14, 2024 – Nykode Therapeutics ASA (OSE: NYKD), a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies, today announced its unaudited financial results for the first quarter of 2024.

The financial report can be accessed in the Investors section of the Company's website: <https://nykode.com/investors/financial-reports-and-presentations>.

The Company will host a webcast presentation at 4 p.m. CET / 10 a.m. ET. A live and archived webcast of the presentation can be accessed in the Investors section of the Company's website and on the following link: [https://event.webcasts.com/starthere.jsp?ei=1670178&tp\\_key=4faf9c3758](https://event.webcasts.com/starthere.jsp?ei=1670178&tp_key=4faf9c3758)

#### **About Nykode Therapeutics**

Nykode Therapeutics is a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies with a focus on the treatment of cancer and autoimmune diseases. Nykode's modular vaccine technology specifically targets antigens to antigen presenting cells (APC), which have been shown to induce a broad, strong and long-lasting antigen specific immune response in cancer, which correlates with clinical responses.

Nykode's lead product candidates are VB10.16, a therapeutic vaccine for the treatment of HPV16 induced malignancies which demonstrated favorable safety and efficacy results from its Phase 2 trial for the treatment of cervical cancer. VB10.16 is being expanded into multiple trials for treatment of head and neck cancer and cervical cancer. VB10.NEO, an individualized cancer neoantigen vaccine, is exclusively out-licensed to Genentech, a member of the Roche Group.

The Company's partnerships include Genentech within oncology and a multi-target collaboration with Regeneron in oncology and infectious diseases.

Nykode is also utilizing its APC-targeted technology to create an inverse vaccine platform for the potential use in autoimmune disorders, organ transplant rejections, anti-drug antibody reactions and allergy.

Nykode Therapeutics' shares are traded on the Oslo Stock Exchange (OSE: NYKD). Further information about Nykode Therapeutics can be found at <http://www.nykode.com>.
