

Company Announcement

Nykode Therapeutics – invitation to Q3 2024 financial results presentation

Oslo, Norway, November 20, 2024 – Nykode Therapeutics ASA (OSE: NYKD), a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies, today announced it will release its third quarter 2024 financial results before the opening of financial markets on Wednesday, November 27, 2024.

The company will host a subsequent webcast presentation to review the financial and operating results. A question-and-answer session will follow.

Third Quarter 2024 Webcast:

Date: Wednesday, November 27, 2024
Time: 8 a.m. CET / 2 a.m. ET
Webcast: https://event.webcasts.com/starthere.jsp?ei=1694735&tp_key=b3383a33dd

The financial report, as well as a live and archived webcast of the presentation, can be accessed in the Investors section of the company's website: <https://nykode.com/investors/financial-reports-and-presentations>

About Nykode Therapeutics

Nykode Therapeutics is a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies with a focus on the treatment of cancer and autoimmune diseases. Nykode's modular vaccine technology specifically targets antigens to antigen presenting cells (APC), employed with their cancer vaccines to induce a broad, strong and long-lasting antigen specific immune response, which correlates with clinical responses in cancer patients.

Nykode's lead product candidates are VB10.16, a therapeutic vaccine for the treatment of HPV16 induced malignancies, which demonstrated favorable safety and efficacy results from its Phase 2 trial for the treatment of cervical cancer. VB10.16 is being expanded into multiple trials for treatment of head and neck cancer and cervical cancer. VB10.NEO, an individualized cancer neoantigen vaccine, is being investigated in a trial with more than 10 different indications.

The Company's partnerships include a multi-target collaboration with Regeneron in oncology and infectious diseases.

Nykode is also utilizing its APC-targeted technology to create an inverse vaccine platform for the potential use in autoimmune disorders, organ transplant rejections, anti-drug antibody reactions and allergy.

Nykode Therapeutics' shares are traded on the Oslo Stock Exchange (OSE: NYKD). Further information about Nykode Therapeutics can be found at <http://www.nykode.com>.
